1943

2024 Vol. 17 No. 2

ISSN 2686-7281 (PRINT)  
ISSN 2686-729X (ONLINE)

## South Ural State University

The journal publishes the major scientific findings of fundamental and applied research in psychology and psychophysiology, as well as other significant materials on issues in this field.

The journal's mission is to disseminate advanced scientific knowledge and the best Russian and international experience, as well as to maintain its readers' interest in original research and innovative approaches in psychology and psychophysiology.

The journal implements its function through its active role in the establishment of an integrated scientific framework by publishing the results of Russian and international open research in psychology and psychophysiology.
